**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 20-23 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not set forth that the reflective member is "non-fastened" being that it is integrally formed into the club head. The fact that it is integrally formed indicates that it is fastened to the putterhead. For examination purposes, "fastener-free" will be interpreted as being "removable fastener-free" as set forth in the specification by Figure 10.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 20-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Chiuminatta et al. (USPN 5433444).

Regarding claim 20, Chiuminatta et al. discloses a golf putter comprising a shaft **22** and a fastener-free combination comprising a putterhead **20** and a nonadjustable reflective member **40** formed integrally as one piece with the putterhead whereby a golfer is able to visually align the putterhead and a golf ball to be putted by viewing reflections from the non-fastened, non-adjustable reflective member between the ball and the eyes of the golfer (See Entire Document).

Regarding claim 21, The reflective member is a reflective glass being that a prism is formed of glass or resin (See Column 6, lines 5 through 29).

Regarding claim 22, The reflective member comprises at least one alignment indicia **46** and **47** to assist in establishing and retaining correct alignment between the putterhead and the golf ball before and during the putt (See Column 6, lines 36 through 41).

Regarding claim 23, Chiuminatta et al. discloses a golf putter comprising a shaft **22** and a fastener-free combination comprising a putterhead **20** having a top and a ball striking front surface and a nonadjustable reflective line of sight element **40** formed integrally as one piece and connected to the shaft at the putterhead at an angle to both the vertical and the horizontal and permanently align with the ball striking front surface (See Entire Document).

***Response to Arguments***

Applicant's arguments with respect to claims 20-23 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
